

Q.2.Fill in the blank in the Result column as shown in the below table, for given Boolean expression that contain logical operators, with given values for variables.

a=10

b=15

c=30

| Expression | Result (True or False) |
|------------|------------------------|
| a>b && a>c |                        |
| a<b && c>b |                        |
| a>b    c>b |                        |
| ! (b>a)    |                        |

**Instructions:**

&& : Logical AND

|| : Logical OR

! : Logical NOT

| Expression | Result |
|------------|--------|
| a>b && a>c | False  |
| a<b && c>b | True   |
| a>b    c>b | True   |
| ! (b>a)    | False  |
